Introduction

As a graduate in aeronautics , I am seeking a stimulating opportunity to leverage my expertise in Computational Fluid Dynamics (CFD) and meteorology , combined with a strong passion for performance. I am a dynamic individual with excellent problem-solving skills and a proven ability to thrive in collaborative team environments.

Technical skills

CAT A (basic) , knowledge of avionics systems , reading technical diagrams , use of measuring instruments , aeronautical maintenance software (e.g. , AMOS)

Soft skills

Problem solving , teamwork abilities , attention to detail , reliability , result-oriented

Work experience

NOV 2016 - JUL 2023

Milex - *Driver*

- TNT national shipping services

DIC 2003 - OCT 2016

Address Agency , Milano - *Driver*

- Pony express for urgent deliveries to Milan within 3 hours
- National and international courier services

Trainee experience

JAN 2004 - NOV 2005

Aeroporto di Milano Bresso

- Conducted thorough visual and functional inspections of structural components and avionics systems to ensure safety and compliance.
- Supporting flight operations , managing aeronautical documentation , coordinating with crews.
- Generated detailed technical reports on completed maintenance to support operational excellence

High school education

OCT 2001 - JUL 2003

Lindbergh Flying School , Milano - *High school Diploma*

Aeronautical technical expert specializing in Air Navigation

Flight training

SEP 2002 - APR 2003

Aeroporto di Milano Bresso - *Flight Certificate*

- Attended training courses on safety and operational procedures
- Flight planning
- Flew on Piper PA 28 and Cessna C 172 aircraft

Languages

Excellent Italian from birth

Good level of English and Aeronautical English
